8:40pm

I was at Shawn Harwood's residence with his wife Jori, her friends Laurie-Ann Hone and Natalie Hone and their children. I arrived at Shawn's at about 7:30pm. At about 8:40pm, Laurie-Ann Hone asked me if I was still hanging around Eric and if I see him much. I said to her that he lives in the same town as me and I hardly ever see him. Laurie-Ann pauses for a second and says no Eric and I said Eric Johns, she said yeah he lives out in Sturgeon Falls. I said I thought she meant Eric Bizzell. (***) I never really hung around Eric "Butch" Johns other than playing basketball against him or partying with him after a couple of basketball games or championships.- I thought it was really odd that Laurie-Ann was asking about this especially when she does not hardly even know me. We had a discussion about Eric Johns and the trouble that he had apparently got in. I said I really did not know all that much about it other than he apparently sexually assaulted somebody. Laurie-Ann stated that it was a mix-up and that the woman who he was in bed with apparently thought it was her husband and when she found out that the guy going down on her was not her husband and it was "Butch", Eric Johns that she screamed and then called 911. Laurie-Ann Hone stated that he did not rip her clothes off and sexually assault her like that. Shawn and Natalie were also present for this conversation. During the conversation we also talked about Nikki (Nicole) Robertson who was Eric Johns former partner. Laurie-Ann informed me that Nikki was working up at the Native building on Hwy 17. Laurie-Ann stated that Nikki helped put together policies and procedures

for the Native CAS (**I believe). Laurie-Ann stated that Nikki helped placed children in foster care. I said on the reserve and Laurie-Ann appeared to believe that this was true. I indicated to her that I still worked for CAS in Barrie. (**I was baiting her and Shawn and anybody to see if this was to come out later.)

At about 9:30pm we were sitting in Shawn's house and I was sitting beside Shawn and we got talking about the movie "Slapshot." Shawn asked me if I ever saw "Slapshot 2." I said "no." Shawn said that he had it and asked me if I wanted to borrow it to watch at my dad's. I said sure. A couple of minutes later he got up and got it. Shawn asked me if I saw the "Dukes of Hazard," movie or not as he had a copy in his hand. I said "no." He said do you want it to. I said "sure." Shawn said you have ignore the parts where people appear to walk by. He said it is "piracy." (**-I will not watch this as I believe that the Barrie Police Service has been investigating me for piracy.) (** I found this to be odd)

At about 9:45pm when there was nobody else around Shawn said I have to ask you something Dunny, were you mad at me. I said "no." What makes you ask that? Shawn could not provide me with a direct answer to why he thought that. I said that I may have been unintentionally distant toward him just because of what has been going on. Shawn said that he figured it may be just because of everything that is going on. I told Shawn that I am mad at Jason (Jason Laronde) and Kevin (Kevin Harkness). I said to Shawn that they no something that is going on. They know something that is

going on. Something that I believe is going on here in North Bay. I said to Shawn that I know that my dad and Peggy even know something that is going on. (***)I tested Shawn here to see how he would respond. I said to him that there are only 3 people who are close to me that I don't think know anything that is going on. I said my mom, Victor Matanovic Jr. and himself. (***)However, tonight was the first slight indication that Shawn knows something as well.) Shawn said to me that I must not know who to trust. I said I don't know who to trust. I said that I have my life documented and that coincidence after, coincidence, after coincidence just does not happen.

01-Aug-06- 8:35pm I called Shawn Harwood to see if he wanted to come out to my dad's for a Bar-B-Que on the 02-Aug-06. During the conversation Shawn asked me if had jerked off to those titties last night. I said, "noooo" (***) It appeared as though he made it a point to ask. I was not sure if he meant from the Dukes of Hazard movie or the fact that he had mentioned about the size of Natalie Hone's tits the night before while I was at his place. Shawn also asked me if I had hit any deer. I said "no." Shawn also talked about Craig Hunt. Shawn said that he had asked Dale Bethune at work today how Craig Hunt had got the nickname "onion." Dale said that somebody had pulled his pants down when he was younger and when they did, his penis and balls looked like an onion. I said oh I do not know how that other story had got out there. I said because I had heard the other story. The other story was that when some girl went down on him it smelled like an onion. I said it also really funny how Eric "Butch" Johns name came up. Shawn said "Oh, yeah it is because Lauri Hone is such good friends with Nikki Robinson.

02-Aug-06- 9:20pm Shawn and I started talking about my situation. Shawn stated that it was odd that the Barrie Police were wasting their time with me punching a hole in the wall from a year ago. I said "yeah I know." I said this has all happened because of one cunt, not identifying anybody. Shawn stated that it is weird after all you did for her by looking after her kids and everything. (***)I am assuming Shawn was referring to Maureen Carrel here.) Shawn also asked if the last time I spoke to Todd Hunter was last year. I said "yes." I said he will never call again because he knows that I know. I said that coincidence after coincidence after coincidence do not keep happening. I said that I have my life documented and that I will make this the biggest media circus ever. I said that I you want to call 700 people to the stand then lets go. I said some of them may perjure themselves but they all won't. I also talked about Maria Malott sleeping with me for a couple of months and how sick that was on her behalf. Shawn also asked about me applying to other C.A.S.'s and if my work reputation could help me. I said it did not matter as I would have no reference from Simcoe CAS and plus I would have the criminal charge currently against me show-up on a criminal record check. I said that I was going to go for a job interview a couple of weeks after this happened with Muskoka CAS but Vic's dad talked me out of it. I said that I hope to possibly get a reference with my settlement. (***)I baited Shawn to see if this would get out later and to see if he would sell me out in anyway.)

25-Aug-06- 8:52pm Shawn Harwood had returned my call as we had been playing phone tag. During the discussion Shawn asked me if people from work had been still bothering me. Shawn asked if Kerri & Kirk are still calling, I said "no." I said nobody from work is calling anymore. I said I have cut all ties with people from work and I probably should have done that a long-time ago. Shawn said I am sure you have a lot on a lot of people. I said yeah I do. I said that I have been looking at the notes I have and it is interesting that it appears that people have had meetings behind the scenes. I said that this person said something and then somebody else said something that was similar and so on. (***)This conversation went on for a long time and it was like Shawn was trying to keep me on the phone.) I also discussed with Shawn about the tint on my car and maybe it was too dark. Shawn stated that maybe Michael did not want anybody seeing him drive it.
